NOVA PINTURA KTL

Tecnologia que você reconhece na peça.

Imersão e corrente elétrica para formar uma camada uniforme de proteção sobre o metal.

PREPARAÇÃO · IMERSÃO · PROTEÇÃO ANTICORROSIVA

PORTUGUÊS

Na pintura por cataforese (KTL), a peça preparada é imersa em um banho e a corrente elétrica promove a deposição do revestimento. O processo favorece a cobertura uniforme, inclusive em regiões internas e de difícil acesso.

ESPAÑOL

En la pintura por cataforesis (KTL), la pieza preparada se sumerge en un baño y la corriente eléctrica deposita el recubrimiento. El proceso favorece una cobertura uniforme, incluso en zonas internas y de difícil acceso.

ENGLISH

In cathodic electrocoating (KTL), the prepared part is immersed in a bath and electrical current deposits the coating. The process promotes uniform coverage, including internal surfaces and areas that are difficult to reach.
